Must-Know Words

Cybersecurity:

Protection of internet-connected systems, including hardware, software, and data, from cyber threats.

Two-factor Authentication (2FA):

Security process that requires users to provide two different authentication factors to verify their identity.

Security Advisory

The Ministry of Interior advises the Nigerian public to remain vigilant against cyber threats. Be cautious of suspicious emails, links, and messages. Regularly update your antivirus software and use strong, unique passwords to protect your online accounts.
